* Cabin radiation measured according to ISO 3741:2010

* SFP in Wh/m³ calculated with measured data according to 13141-7:2018

* Return noise measured according to ISO 5135:197 (measured values include end-of-reflection correction)

* Supply noise measured according to IOS 5135:1997 (measured values include end-of-reflection correction)

* Connection diameter used 180mm
